Logistics Solutions

Important logistics hubs and functions:

Its location in the geographical centre of Europe as well as its excellent infrastructure make Hesse an ideal place for logistics. Northern Hesse offers the latest cut-off time within Germany and thus best conditions for the over-night delivery of goods. With more than 275 direct flights to international destinations, Frankfurt International Airport ensures global airfreight connections.

Lighthouse:

The so-called House of Logistics & Mobility at Frankfurt Airport is an innovation centre of logistics and mobility. Here, business and political representatives work in an industry-spanning and interdisciplinary context to find solutions for the challenges of today and the future. The collaboration of different competences and a network of partners in various countries let this project shine internationally.
