Logistics Solutions

Important logistics hubs and functions:

Rhineland-Palatinate provides an efficient traffic infrastructure for all carriers and a broad range of offers for all kinds of logistics. Special focus lies on manufacturing and trade logistics, complex automobile logistics and logistics services. Quick access to all economic centres of Europe is granted by what is the most dense network of wide and supraregional streets in Germany, as well as the waterways Rhine and Mosel, important European railway tracks and the low-cost airport Frankfurt-Hahn.

Lighthouse:

The international low-cost air freight hub Frankfurt-Hahn has succeeded in becoming one of the five biggest German air freight airports. Airlines and various companies value the runway of 3,800 meters in length, which holds a 24h operating license, offers competitive prices as well as a good connection to transportation roads to transborder hinterland. Apart from regular freight, thanks to its technical equipment, the airport Frankfurt-Hahn enables the trade in special freight with large-capacity aircrafts, making the location all the more attractive.
