Logistics Solutions

Important logistics hubs and functions:

Top logistics performances, its central geographical position in Europe and an excellent infrastructure make Saarland an internationally recognised logistics site. Experienced logistics service providers in Saarland are known for their expertise regarding France and Western Europe, as well as their innovative approaches to all logistical challenges. Logistics is one of Saarland's key competences. Years of experience in the automobile industry guarantee the adherence to schedules and profound know-how.

Profiles and contacts of Saarland's service providers can be found here: www.logistik.saarland.de

Lighthouse:

Via Saarland's Dachser Euro-Hub, access to all targets within Europe is guaranteed within 24-48 hours. As one of Europe's leading logistics service providers, with more than 17,500 employees in 306 locations worldwide, Dachser covers procurement and distribution logistics, meaning an integration of transport, warehousing, and value-added services. Many companies benefit from the most important logistical hub in Überherrn for their European logistics. More area is acquired at the time, so that an additional 180 ha of land will be available throughout Saarland by 2013.
